Subject: Fw: water test results for  in Dimock

And this one?

Very respectfully,

David Polish

Hi! I'm not sure if these are being sent to the correct people or not. EPA tested our water in the mid. of Jan. We had spoken with a Trish Taylor approx. 3 wks ago. She told us someone would come out and bring us our test results. They were a no show and we've never heard back from her our emails go unanswered as well. We have gotten our test results back from Cabot but we haven't gotten any from the EPA or DEP and have heard nothing from either agency. Unlike the litigants we have been using our well water for over a year now. We'd love to see the test results or at least hear that our water is good to put our minds at ease. Certain people seem to be saying our treatment system on our well doesn't work. Like I said we've been using the water for quite some time and to our knowledge it does work. If I sent these emails to the wrong person please send them to the correct person. We've had quite a few people from the EPA come out to our home and have gotten business cards from some people and not others. Hope you understand.
Thank you for your time. Hope you have a nice day,
